SPRINT 1
(Wed Oct 14 - Tue Oct 27)

- Spike 1
  – Learn React
  – Set up pre-existing website and compare to our needs
  – Learn API capabilities
    - Test with postman

- (2) As a user I want to be able to make an account.
  – Completed: Link to existing Register Account (You don't need to create this page)
    - This has been completed by the past team
    - Need to check out how it works and if we need to add any capabilities
    - Probably React

- (2) As a user I want to be able to add a new device to the map/system.
  – Completed: Register Device Page (this is created and you can remake it or reuse it) if you use React
    - Also completed by past team
    - Need to check it out and make any design changes, then possibly use or remake
